GLADIOLUS

OF

DISTINCTION

GREETINGS

We extend our sincere thanks to our customers for their patronage in the past which increases with each passing year. And hope the present crisis will not curtail their enthusiasm for fine Glads.

1943 has been a critical year for gladiolus growers, help has been hard to get. Fertilizer and spray materials have been scarce and high in price. Cost of other tools and materials have soared in prices, so it has been necessary to raise prices of bulbs.

PLEASE READ CAREFULLY

No substitutions will be made without your permission. If we are out of a variety you order, your money will be refunded unless you give us permission to make a substitution in size or variety.

No retail order for less than \$1.00 will be accepted.

Where a variety is listed at 2 for 10 cents or 2 for 15 cents, please do not order a smaller number at a lower price. Five bulbs will be sold at one-half the price of ten, but no single item will be accepted for less than 10 cents. Where no 10 price is indicated, it may be found by multiplying the price of a single bulb by 8. Twenty-five bulbs of the same size and variety will be sold at 2 times the price of ten. One hundred of the same size and variety will be sold at 8 times the price of ten.

All retail orders prepaid to all points in the United States.

SIZE OF BULBS

Large bulbs contain No. 1 and 2 or 1 $\frac{1}{4}$ inch and up.

MEDIUM bulbs contain No. 3 and 4 or $\frac{3}{4}$ to 1 $\frac{1}{4}$ inch.

Small bulbs contain No. 5 and 6 or $\frac{3}{8}$ to $\frac{3}{4}$ inch.

1944 INTRODUCTION

REVLON—Seedling No. 39011. This is a seedling of Picardy X Commander Koehl and makes a tall spike of a beautiful vermilion red. This grows 55 to 60 inches tall. 20 bud spike with 7 open, 5 showing color, with 5 inch blossoms. With good placement. I am sure this will become a very popular cut flower. I sincerely believe this is the best red for cutflower use.

Price, \$3.00 per bulb. No bulblets this year or next.

FROM ARTHUR A. ARENIUS

CONNECTICUT YANKEE — Seeding 39-4. Originated by William Schenetsky, originator of King William. Color is blush pink or light pink. Clean solid color with a most attractive red throat blotch. Large formal type with 20-22 buds, 8 open, 4 showing color. Florets plain petaled and wide open. Height in field without special culture about shoulder high. Flower head 24-28 inches. Bulblet production and germination good. Strong grower that blooms in 80 to 85 days.

Prices, sizes 1, 2, 3, per 1, \$10.00. Sizes 5 and 6, 1 for \$5.00.

CONNECTICUT YANKEE has won the following awards:

Commendation, 1941, Connecticut Gladiolus Society.

Best Spike in show, 1942, Connecticut Gladiolus Society.

Award of Merit, 1943, Massachusetts Horticultural Society.

Award of Merit, 1943, New England Gladiolus Society.

Only times shown will become very popular.

PREVIOUS VARIETIES

ROSE OF MINNESOTA—1943. Slightly ruffled rose lavender, unusual coloring, growing 50 to 55 inches tall, 18 buds, 6 open, 6 buds showing color with 5 to 6 inch blooms.

Price at: large, 75 cents; medium, 50 cents, small 30 cents. Bulblets, 10 for \$1.00.

VULCAN—by Dr. Stevens, 1942. This sensational purple is without a doubt one of the finest in its color class. It is of exhibition type with 18 buds, 7 open, 5 showing color — 55 to 60 inches tall.

Will be very popular as soon as stock is available.

Price at:

Per 1, large, 75 cents; medium, 50 cents; small, 30 cents. Bulblets, 10 for 65 cents.

Per 10, large, \$6.00; medium, \$4.00; small, \$2.40. Bulblets, 100 for \$5.00.

MEPHISTOPHELES—This novelty was listed in 1942 due to the many inquiries, after showing it in the Boston show it sold so well we had to omit from last year's list to build up stock. This is a hard Glad to describe, so won't try to. If you like novelties try a few. Some will crook, but it's an eye getter to the ladies.

Price, 3 bulbs for \$1.00 or 15 bulbs for \$4.00. No bulblets.

Max Leavitt, well known grower, writes in the Maine year book when asked to write on novel and unusual Glads: The first on my list I believe should be MEPHISTOPHELES. Here we have a charming little fellow, red with yellow in the throat, blotched red. This is a very striking Glad and gets a great deal of attention.

ARE YOU A MEMBER?

The Connecticut Gladiolus, now affiliated with the New England Gladiolus Society, invites every Glad lover, or grower, to become a member. Dues are \$2.00 per year or affiliate membership for \$3.25. The affiliate membership will entitle you to the year book and three supplements mailed by the New England Society each year, also to exhibit at the state show or Boston show.

I will be pleased to forward your membership.

Connecticut growers and Glad fans especially asked to join our society.
